

Advanced Practitioner in Sustainable Leadership

Session LP2.6: Activities – Importance of Performance Outcomes

This set of activities

In this session, we discuss the Sustainable Performance Outcomes in the Sustainable Leadership Pyramid (SLP).

Your task: identify which practices contribute to each of the five outcomes separately.

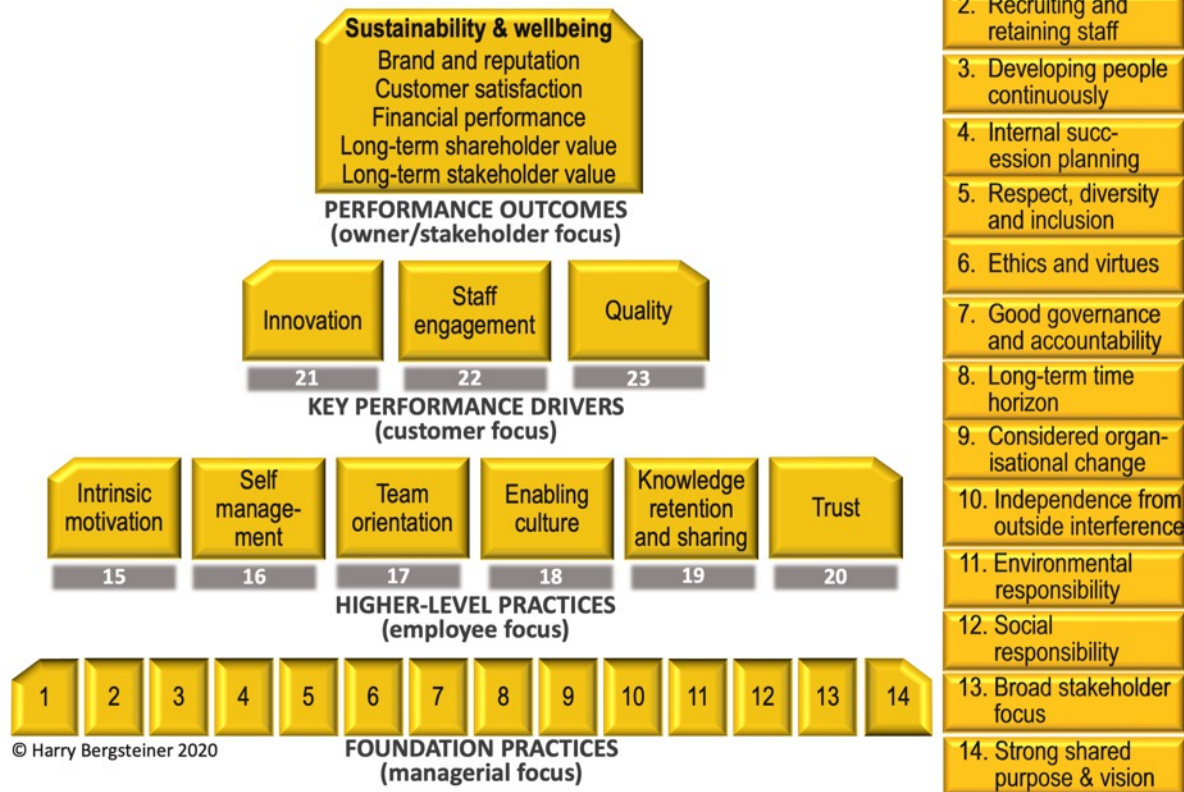

Use different colours so you can see the 5 outcomes.

What does this tell you about the practices contributing to the various Performance Outcomes?

Activity 1: Identify which Honeybee practices support brand and reputation

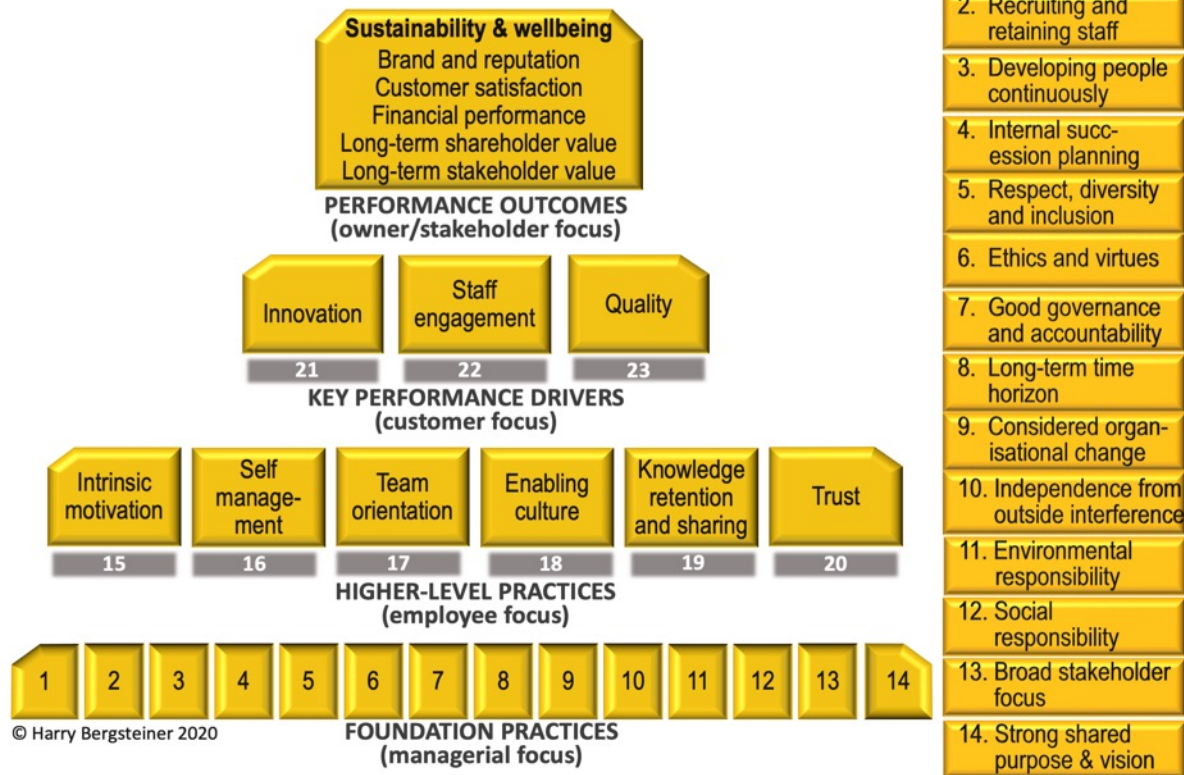

The Sustainable Leadership Pyramid (SLP)

Activity 2: Identify which Honeybee practices affect customer satisfaction

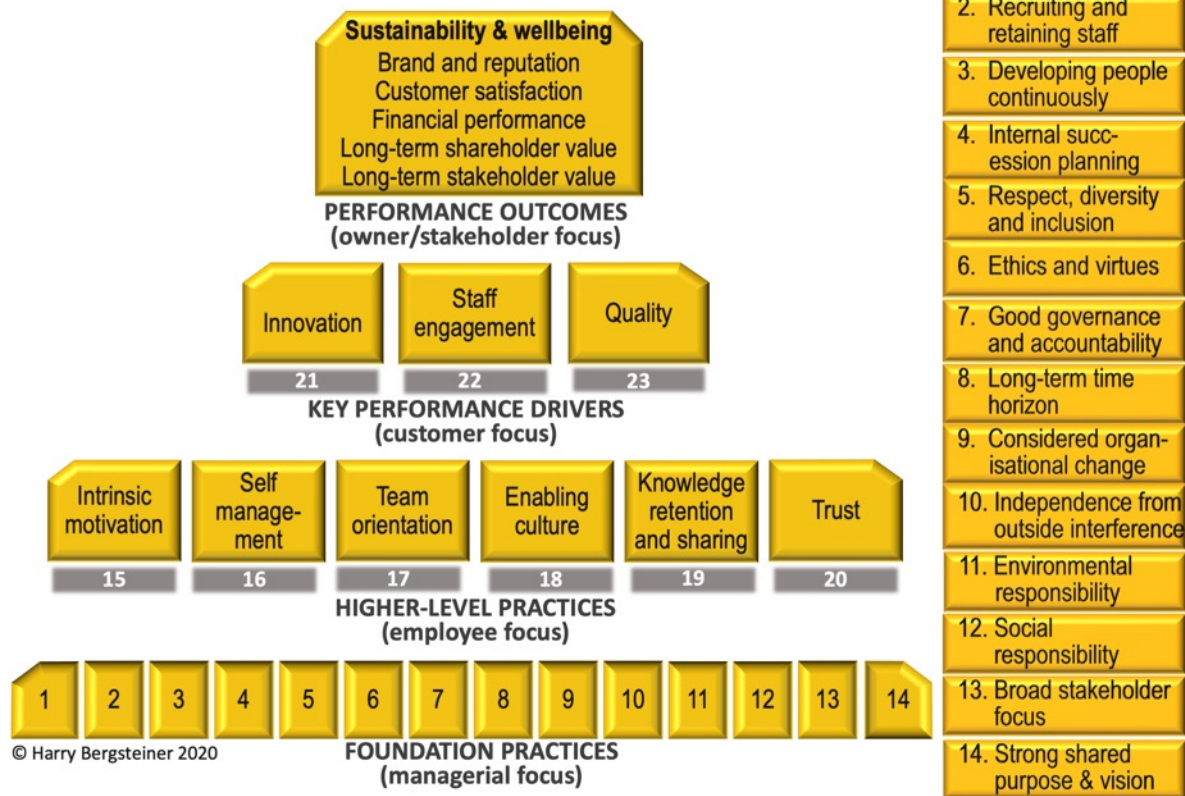

The Sustainable Leadership Pyramid (SLP)

Activity 3: Identify which Honeybee practices support the pursuit of financial performance

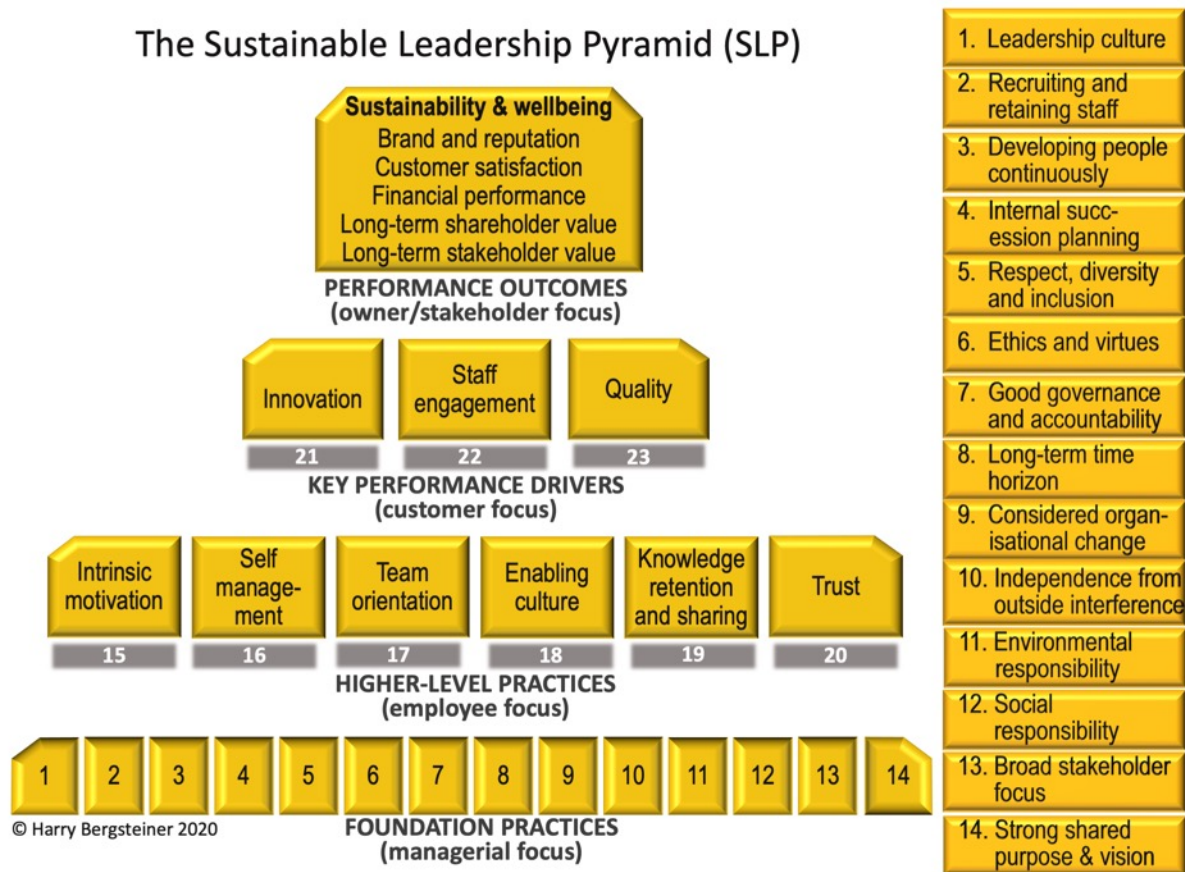

The Sustainable Leadership Pyramid (SLP)

Activity 4: Identify which Honeybee practices support the pursuit of investor value

Questions to consider

You have mapped the SLP practices to the 5 Performance Outcomes.

1. Which practices contribute to which outcomes?
2. Do you find any overlap? Which ones?
3. What does this tell you about how the Sustainable Leadership practices work to enhance performance?
