

Advanced Practitioner in Sustainable Leadership

Session LP5.9: Interpreting the results

This session

1. Offline, collate all the information and data you have collected about the living Case Study organisation in Module 5.
2. Integrate the individual pieces of information.
3. Create a written report that builds a picture of this organisation, that is, try to make a coherent story.
4. Bring your report to the relevant online meeting for discussion.
5. Rework your report after the discussion ready for submission as part of your licensing process.

Reminder: Key tools

In this module, we used a number of advanced tools for assessing the Sustainable Leadership practices in the living Case Study organisation. The tools are:

- The Sustainable Leadership Grid
- The Sustainable Leadership Pyramid
- The Sustainable Leadership Workbook
- Conducting a Strategic Assessment – SLP and SDGs
- The Sustainable Leadership Questionnaire
- The SLQ Report
- 6 Stages of Sustainability
- The Prescriptive Accountability Model
